

Rating Action: Moody's downgrades to Baa1 from A2 the rating on Overton Power District's (NV) outstanding special obligation revenue debt; Outlook is negative

Global Credit Research - 01 Feb 2013

Baa1 rating applies to \$15.6 million in rated revenue debt

New York, February 01, 2013 -- Moody's Investors Service has downgraded to Baa1 from A2 the rating on Overton Power District No. 5, NV's \$15.6 million of outstanding special obligation electric system net revenue debt and assigned a negative outlook.

SUMMARY RATING RATIONALE

The downgrade reflects the district's failure to meet its rate covenant related to debt service coverage on its Series 2008 Special Obligation Revenue Bonds. The rating is also reflective of the district's large but mostly undeveloped service territory in southeastern Nevada, relatively weak local economy, and reliable source of power. The outlook suggests the potential for further rating action absent significant and sustained improvement in debt service coverage.

STRENGTHS

- Power contract with Arizona Public Service providing for entire base load requirements is in place through 2018
- Independent rate-setting authority

CHALLENGES

- Very narrow finances with just over sum sufficient debt service coverage and cash levels that have declined to below management's internal reserve target
- Future financial health will rely on timely rate adjustments rather than uncertain and slowed growth
- Weak local economy is not expected to exhibit strong growth in the near- to medium-terms

WHAT COULD MOVE THE RATING UP (REMOVE NEGATIVE OUTLOOK)

- Sustained improvement of debt service coverage to a level above the rate covenant
- Significant increase in cash reserves

WHAT COULD MOVE THE RATING DOWN

- Continued failure to meet rate covenant level of net revenue debt service coverage
- Deterioration of liquidity position
